Innovative Practice Based
Solutions

Foundations of ORS

A national market leader in cold-compression therapy, we have introduced an innovative practice based program to enhance patient care.

Compliant

Vetted by experienced counsel for regulatory compliance and, where appropriate, validated with state regulators.

Sustainable

We provide best in class technology and ongoing operational support to ensure consistent and safe outcomes for the lifetime of the program.

Profitable

Proactive and transparent engagement with payors to seek prior authorization. ORS manages billing, collecting, and reporting of every financial transaction.

“Drop every other ball you have in the air and grab this one immediately”.

-Dr. Michael Bercik

Program KPI's

- 76% of patients report taking fewer narcotics.
- 94% Patient Satisfaction Score with CCT.
- 80%+ Rx submissions are approved.
- >\$1,100 anticipated net profit to the practice per approved patient.

Financial Reporting

Our longevity and reputational excellence among payors and practices, along with our service model and ongoing support, make this the #1 new ancillary revenue program for private practices today.
